Professional Learning Day Plan – September 19, 2025
Northrop Frye School

The following is a brief description of our planned professional learning work for September 19. This work is organized around our district's four collective goals:

- All students shall read, write, and communicate at grade level in both languages of instruction.
- All students shall be at grade level in numeracy.
- All students and staff will feel safe, cared for, and engaged in learning.
- All students shall graduate from high school.

School staff will monitor the impact of their work from September 19, and on subsequent professional learning days, in achieving these goals.

Literacy

- Teachers will identify gaps and plan targeted instruction based on literacy data.

Numeracy

- Staff will align strategies and improve student achievement using student numeracy results.

Safe, Cared For, and Engaged

- Staff will ensure each student connects with at least one trusted adult through a relationship-mapping activity.
- Teachers will strengthen communication skills to build positive home-school relationships.
- Educational Assistants will receive district level professional development to help support students and work effectively in and out of the classroom.
- Staff will pursue professional growth in diversity, positive behaviour interventions, or educational research through interest groups.

Graduation

- Staff will focus on strategies to improve student-adult connections, inclusive supports, and stronger communication to boost engagement and graduation success.
